## Overview

A "**mirage**" is usually considered to be an optical illusion. Le Mirage Resort & Spa may at a distance appear to be an optical illusion - however it soon becomes apparent that it is far from such! It must be the most unusual and unexpected sight in the Namib Desert, for it resembles nothing less than an ancient castle, worthy of royalty!

Once inside the castle courtyard, the mirage continues to unfold, for what do we see now? An oasis of lush green grass and foliage, surrounding a sparkling blue pool . . . Yet beyond the castle walls lies little but barren, seemingly endless and inhospitable desert.

Hidden within the castle walls are 27 grand rooms to accommodate guests in regal splendour, and public rooms of equal grandeur which serve as Restaurant, Bar and Lounge.

Also included is the Mystique Spa which provides a wide choice of treatments for those wishing to surrender to total relaxation and to being pampered by any number of wellness therapies.

***This is no mirage - this is real - and truly fit in every way for a King and, of course, for a Queen!***

However, adventure is not far away, and the staff are happy to advise guests on excursions to the sights of Sossusvlei, either self-driven or by joining a guided group trip if required. Also available are dawn balloon trips over the dunes and quad-bike adventures through the dunes.

Quad-Biking - a desert adventure with a difference

Don't miss the amazing spectacle of ancient Deadviei
